Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Allowable Subject Matter

1. This application is in condition for allowance except for the following formal matters:

Specification

2. The amendment filed 30 April 2003 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows:

The specification has been amended to change the last nucleotide of sequences listed at the last line of page 15; in step 63 on page 27; and in step 63 of Fig. 4j. The sequences, as amended, were not in the specification as originally filed. Hence, the amendments introduce new matter into the specification. The sequences are not recited in the claims and therefore the sequences do not affect patentability of the claims. However, because the amended sequences introduce new matter, the amendments are objected to under 35 U.S.C. 132.

Applicant is required to cancel the new matter in the reply to this Office Action.

3. The disclosure is objected to because of the following informalities:

The sequences listed throughout the specification and drawings (e.g. pages 15, 16, 27) must be identified by their "SEQ ID NO:". In response to this action, Applicant is required to amend the specification to identify each nucleic acid by its SEQ ID NO:.

Appropriate correction is required.

Art Unit: 1634

Drawings

4. The drawings filed on 4 August 2000 are acceptable subject to correction of the informalities indicated above regarding the nucleic acid sequences illustrated in Fig. 4J. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

5. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

6. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Conclusion

7. Claims 3-4 and 9-10 are free of the prior art and will in condition for allowance following resolution of the above formal matters.

8. The examiner for this application has changed. Please address future correspondence to Examiner BJ Forman, Art Unit: 1634.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to BJ Forman whose telephone number is (571) 272-0741. The examiner can normally be reached on 6:00 TO 3:30.
